Design I choose is this

Code for this design

```
import React from "react";
import {StyleSheet , View , Image, Text } from "react-native";
export default function App(){
  return(

    <View style = {styles.container} >

      <View style = {styles.box1}>
        <Image
          style = {styles.Imagestyle}
          source = {require("./assets/insta.png")}></Image>

        </View>
        <View >
          <Text style = {{fontSize:25 , color:"white" , fontweight :
"bold"}}>Instagram</Text>
        </View>
        <View style={styles.inputstyle}>
          <Text style = {styles.label}> User name</Text>
        </View>
        <View style={styles.inputstyle2}>
          <Text style = {styles.label }> Password</Text>
        </View>
        <View style={styles.inputstyle3}>
          <Text style = {styles.label} > login</Text>
        </View>
        <View >
          <Text style = {{ fontSize:12 , color:"white" , fontweight : "bold"}}>
            Forgot your password
```

```

    </Text>
  </View>
  <View style = {styles.style1}>
    <Text style = {{ fontSize:30 , color:"white" , fontWeight : "bold"}}>
      Create a Account
    </Text>
  </View>
</View>
);
}
const styles = StyleSheet.create({
